Profile

My name is Elfar, I'm 27 years old and I've been working as a composer for more than three years. Over these last years I have grown a lot in my work and acquired new skills, especially during my time working on the feature film "Everest" which is my most challenging project up to date. I have learned to work under a lot of pressure delivering top class work on tight deadlines.

EXPERIENCE

Composer, RVX

Reykjavík, Iceland — April 2014 - February 2016
